The Choice - “Insurance Professionals”

Our Account Executives analyze your current coverage and exposure. They will decide the best insurance carriers in order to offer you the most comprehensive and competitive proposal. Upon determining your needs, they will also integrate our support service into your program as required. It is their optimum attention to quality, economy and risk management services that inevitably bring you the “value added” concept your account deserves.

The Choice - Our Commitment

The Hamilton Brewart Insurance commitment continues from our Account Executives to our Customer Service Representatives. Our Customer Service Representatives are responsible for the day to day management of your account. Service needs arise rapidly and they satisfy them immediately. They have the experience and expertise to resolve complex problems with simple and creative solutions. They are a part of our ultimate goal - “Committed to serve Excellence”.

The Choice - Service Commitment

As insurance companies diminish their services to compete in the open market, we have added services - so you, our client, will not lose. Claims management and prevention of losses are key factors in controlling your insurance costs. We have on staff an experienced *CLAIMS SPECIALIST and LOSS CONTROL SPECIALIST*. Our claims specialist will be your advocate to ensure that claims are handled promptly and fairly. Additional claims services include a review of reserves for accuracy and directing of claims toward prompt closure. Our loss control specialist will help develop your safety programs and provide recommendations to reduce overall potential exposure. Furthermore, we have developed specific programs that will minimize litigation, train your management team and reduce your costs.

Our goal is to develop a close working relationship that will last a lifetime.
